Please book your leave for each rotation ASAP.

There is no teaching in August due to the high-volume hospital rotations which occur at the start of the month.

Most of the teaching days will combine a mixture of themes and subjects in addition to exam practice. Some will have a key theme, and these will be advertised closer to the dates.

Teaching is USUALLY the second Wednesday of the month. This is altered to the first Wednesday of the month when teaching clashes with an exam week to ensure teaching is just before rather than just after an exam.
